5. **Golf Course Maintenance Summary:** In the month of May, the GCM are still working towards been changing all the sprinkler heads around the greens for better coverage. There was a leak found in the golf course distribution line. Public Works and the Golf Course Superintendent have discussed how the repair will take place. The leak is near hole #16, so they are working to isolate the area to water the rest of the course. Isolating repairs so the rest of the course can be watered is an on-going challenge with the obsolete engineering of the irrigation system.
6. **Notes:** Rounds and revenue for May were down compared to May 2021. This is due to unusually high numbers last May when golf surged. Rounds and revenue for May were down compared to May 2020.
