Lago Vista will restore the Garden Program at Lago Vista Elementary. Gardening beds will be added to the campus to teach students about the plant life cycle. Benches will be added to the garden to provide green spaces for students to enjoy. This project hopes to help students build a foundational education in horticulture through education and outdoor experience.

STAGE 1 WATERING SCHEDULE:

Winter Sewer Averaging

Your actual water usage during the months of November 2023 - February 2024 are reviewed to determine your sewer rate for your monthly bill. The lowest two months of metered water usage of those four are then averaged to determine your new sewer rate. These months are deliberately chosen because they tend to have the lowest consumption for most customers. The end result is that those who are conservative in their usage will pay less for sewer services. Those who use more water and place a greater burden on the treatment facilities will pay more. New winter averaging rates will be calculated in April of 2024 and due on your bills beginning in May 2024.
