

## **Monthly Report - February**

### **Park and Recreation:**

The Director arranged for a certified arborist to inspect trees on Dawn Drive. Recommendations from the arborist included engaging a tree care service equipped with the necessary equipment and products for tree maintenance. The Director held a meeting with LVUB and LVSC to enhance preparations for both youth organizations, fostering improved coordination and support. PNR added a new full-time staff member to join the team.

### **Aviation:**

The staff continued addressing safety concerns at Rusty Allen Airport. Repairing the flooring in the pilot's lounge, installation of an emergency fuel shut-off on the fuel system, and repairing runway lights were successfully completed.

### **Aquatics:**

Staff contracted a local plumber to address multiple leaks at the pool, successfully repairing a total of six leaks in different areas. Communication was established with the swim team and water aerobics instructor to plan and coordinate schedules for the upcoming season.

### **GCM (Golf Course Maintenance):**

Ongoing efforts were made to address irrigation leaks throughout the month, ensuring optimal water management on the golf course. The team re-stained water cooler houses, installed new flag sticks and cups, and awaits delivery of new flags to replace worn ones. Standard agronomic practices were implemented, including fertilizing greens, mowing, edging bunkers, and weed eating. GCM is gearing up for the upcoming aerification of the greens scheduled for April, ensuring proper planning and execution
